

Amphenol Broadband Solutions offers a High Density Multimedia Chassis designed for high capacity and maximum flexibility in a variety of network applications.

The chassis utilizes industry-standard LGX® dimensioning for the module/adapter panel slots. Available modules support many common fiber optic connections such as SC simplex, LC duplex, MPO/MTP, RJ45 data connection jacks, coaxial (F81), as well as blank universal Keystone panels.

This system achieves high port density with the convenience of combining multiple media connections in a compact and highly configurable package. The flexible system design provides multiple mounting options for both wall mount and rack mount applications.

High Density Multimedia Chassis

Features:

- Capacity of 9 LGX positions
- Connector Capacity, Standard Configuration:
 - ◊ 108 LC, 54 SC or 54 RJ45
- Connector Capacity, High Density Configuration:
 - ◊ 216 LC, 108 SC or 108 RJ45
- Variety of options for wall or rack mounting
- Compact 2RU footprint
- Integrated mounting brackets for 19" or 23" racks with hardware included
- Generous fiber routing rings provide controlled jumper management
- Two ground lug attachment locations
- Port labeling provided in two locations (surface mount labels and slide card)

Specifications

Rack Utilization	2RU
Height	3.5"
Width	19"
Depth	11"
Material	Powder Coated Aluminum

LGX® is a registered trademark of OFS FITEL, LLC
