

***A proven, versatile enclosure designed to environmentally protect outside plant equipment and cabling in CATV networks***

The Amphenol CMPH-7C Series Multi-Purpose Housing is designed for new installations as well as rehabilitation of existing CATV pedestal housings. The superior structural strength, outstanding environmental protection and ease of installation combine to create a long-life housing that reduces operational expenses. The CMPH-7C series housing has proven itself as a versatile workhorse supporting in a wide variety of applications and customer networks.

CMPH-C Housing

***Applications***

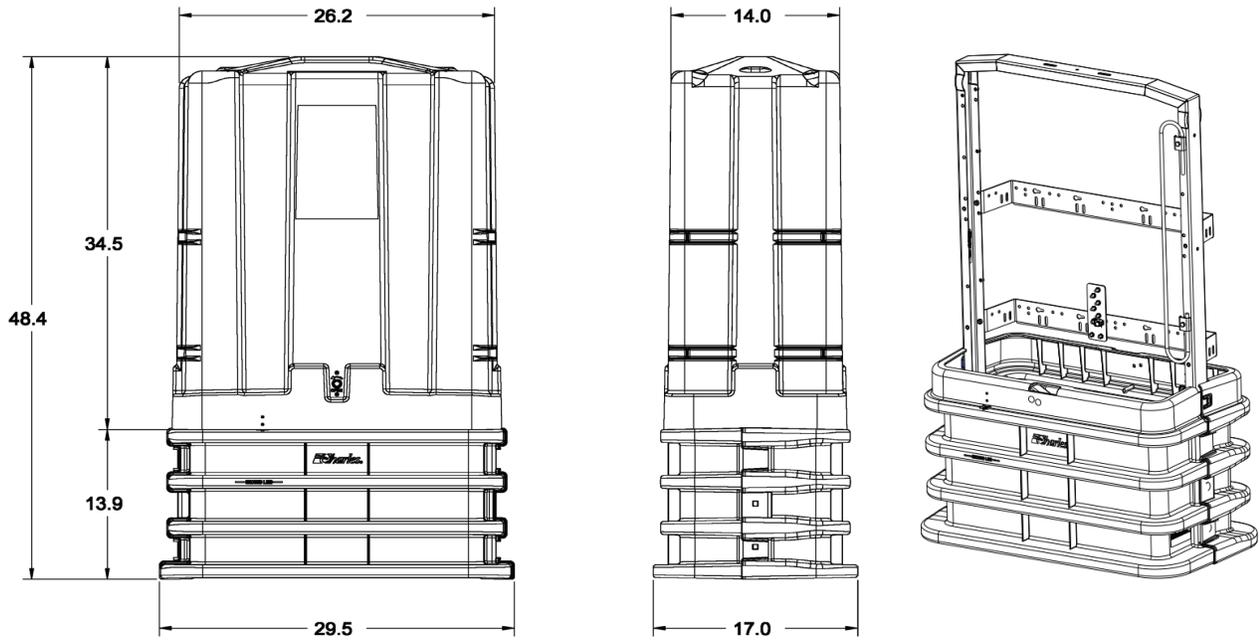

- Cable television amplifier, passives and optical node enclosure
- Retrofits and upgrades to replace failing metallic enclosures
- Split base for simplified placement around existing cables

As a passive or active storage enclosure the CMPH-7C can be a better option than a handhole, providing an easy to locate and access, versus underground handholes potential of water fill and freezing.

- Lift-off dome: Enables 360 degree access to internal working areas. Dual 7/16" hex-head stainless steel locks provide security while allowing access via standard 216-tool or can wrench. Optional padlock hasp for added access control.
- Ample base size: The base provides ample room to bring in multiple cables and conduits for maximum user flexibility.
- Sturdy non-metallic construction: Offers superior dent resistance, corrosion protection, and electric shock safety.
- Repositionable bonding and grounding bar: Offers flexibility for user equipment installation.

ABS Part Number	Description
CMPH-7C0DNXV	CMPH housing includes two off-set fiber storage brackets with "C" strand bracket, bond plate with ground lug, vented dome, self-latching hex head lock
UMS42-STD	Mounting Stake, 42" long, includes hardware, 2 required per enclosure *

\* Order multiple = 10 (carton)

Usable Volume (Approx.): 13,000 cu. in.
